The PSAT / NMSQT measures critical thinking skills that are important for success in college, including critical reading, math problem-solving, and writing skills. Taking the PSAT / NMSQT enables students to:

- Get feedback about critical academic skills
- Seek information from colleges
- Enter scholarship competitions
- Practice for the SAT Reasoning Test
- Initiate the college-planning process

The PSAT is an excellent opportunity to focus on what you must know for your Junior year. It provides experience for a national standardized timed test. Scores are not held against you. For National Merit consideration, only 11th grade students are used.

In late November/early December, your PSAT / NMSQT Score Report and test book will be returned to you. Your score report will include your critical reading, math, and writing skills scores; score ranges; percentiles; and Selection Index (critical reading + math + writing skills scores), which NMSC uses as an initial screen on the large number of entrants to its competitions. Your score report will show the correct answers, your answers, difficulty level of each question, math content involved, and skills that need strengthening.

The PSAT scores may help students:

- Assess his/her ability to do college work
- Predict his/her college entrance exam scores for the SAT / ACT
- Receive college materials through the Student Search Service
- Qualify for the National Merit Scholarships and Achievement Scholarships
