

STUDENT ACCIDENT INSURANCE

The district may provide for a student accidental injury insurance policy, if approved by the electorate at the annual meeting. This plan shall act as a supplement to any private medical policy, but shall also provide coverage if a private insurance program is not subscribed to by a student's parent/guardian. Coverage shall be provided for bodily injury while participating in school programs or activities.

Student accident insurance shall not be paid from district funds unless an annual meeting authorizes the expenditure.
