

Marathon City School District **Raider Reopening Plan**

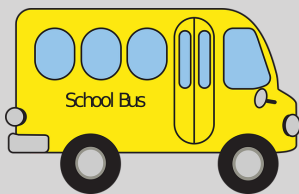

We are planning for the reopening of school to our children focussing on safety, social and emotional well-being, instruction, and flexibility. Please take a few moments to review important information.

Review the detailed plan and make a choice for your student.

All parents will be given an initial choice to having their students back in school with changes for an in Modified In-Person Option or a limited Distance "Real-Time" Option through Jan. 23, with their students at home. **CLICK HERE** for more details. Choices must be made by August 16. Email questions to reentry@marathonschools.us

Transport Your Own Child to School When Possible

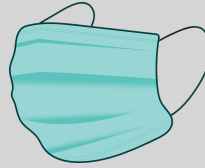

We encourage parents to transport their children to school whenever possible. This helps with decreasing exposure and provides for more space on the busses for those students who must ride the bus. Bus capacity will be reduced this school year.

Bring a Water Bottle

Bottle filling stations are available. Water fountains are not available.

Mask Use

In certain situations/areas of the buildings and at certain grade levels, masks and/or face shields will be required by students and staff. All staff will be wearing masks or face shields when working with students. All students will wear them when riding the bus and arriving at school. Students in grades 4k-4th grade are encouraged to but will not be required to wear them when in their classroom cohorts. Students in grades 5-12 will wear them for most of their school day. Mask breaks will take place throughout the day. ***We will follow State and County orders when in effect regarding masks. When orders end we may continue with district mask plans.**

Lunch

Lunch will be spread out to different locations and in staggered times to reduce the number of students in any one location. To help reduce the amount of students waiting in the lunch line parents are encouraged to pack their own students' lunches when possible.

Students cannot arrive before 7:40 AM. Upon arrival students must report directly to their classrooms

Cohort Model Will Be Used In Grades 4k-8th Grade

The cohort model is where the same group of students are together all day, every day, as much as possible.

Limited Access in Building

Visitors and parents will not have typical access to the building.

Suspected COVID

An isolation room has been identified in each building where sick students will be monitored until parent pick-up.

Stay Home With These Symptoms

- Fever 100 or higher
- Shortness of breath/difficulty breathing
- Nausea/Vomiting
- New Loss of taste/smell
- Cough
- Fatigue
- Muscle/body aches
- Chills
